

THIS FALL AND WINTER REMEMBER... WE DO PROTEIN -DIFFERENTLY-

Protein is certainly a needed component in diets throughout the fall and winter, we are not here to dispute that fact. What we are saying is that with the IST (Indirect Supplementation Technology™) we do protein... differently.

IST is a fundamentally different approach to the traditional, mainstream direct-fed supplements out there. It is better optimizing or squeezing more out of every mouthful, every acre, every bale, every cow, every day. This is a method that is not generally promoted by mainstream supplement/tub companies. We don't just feed the cow, we also feed the bugs that feed the cow.

IST is disrupting the supplementation industry
IN THE FAVOR OF THE RANCHER!

IST helps lower your input costs, increase your efficiency and help boost the profitability of your ranching operation.

✓ EVERY MOUTHFUL ✓ EVERY ACRE
✓ EVERY BALE ✓ EVERY COW ✓ EVERY DAY

RIOMAX
360°

I fed 5lbs less hay per head, per day with the Riomax® tubs, saving me 34¢ per head, per day.
