

WHY RIOMAX®?

- ✓ Highly Concentrated
- ✓ Low Consumption
- ✓ Low Cost to Feed
- ✓ Consumption Guarantee

**RIOMAX® LASTS
UP TO 3X LONGER!***

*VS OTHER BRANDS OF THE 250 LB LICK TUB

Every Riomax® lick tub comes with the **COSTGUARD90™** consumption guarantee. If the situation is such that the intake on the Riomax® lick tubs is higher than the specified amount, when averaged over a minimum of a 90 day timeframe, we will provide you with free product to compensate for the over consumption. The Riomax® tubs are very low intake with most having a guaranteed maximum of 1/4 or 1/3 lb/hd/day on cattle.

NOTE: COSTGUARD90™ does not cover horses and does not apply to Riomax® loose mineral, ComboCubes™ or the Equus360® lick tub.

IN EVERY
RIOMAX®
FORMULA!

A DIGESTION POWERHOUSE DESIGNED FOR IMPROVED FORAGE BREAKDOWN & INCREASED NUTRIENT EXTRACTION.

Nutrizerb® is all about stimulating and hyper-activating the good, beneficial bacteria in the rumen. These stimulated microbes are enhanced and do a much better job of breaking down the forages, and rendering them into a digestible state for the cow to utilize.

✓ Yeast ✓ MOS ✓ Enzymes ✓ Prebiotics ✓ Probiotics ✓ FungiFuel™

Microbial protein makes up a large portion of a cow's daily protein requirements. Nutrizorb® increases this microbial protein by working with Mother Nature and squeezing more out of every mouthful, rather than depending on expensive protein supplements. Further, as the increased populations of microbes die off, they become 'true protein', or what we call 'Mother Nature Protein'. A cow gets between 30-80% of her daily protein requirements from true protein.

IT'S CALLED I.S.T.

Nutrizerb® fuels I.S.T., or Indirect Supplementation Technology®. Rather than a traditional, direct-fed protein supplement, this technology is disrupting the industry *in the favor of the rancher.*

"GET MORE OUT OF WHAT YOU'VE ALREADY GOT."

It goes without saying, the more your herd can pull out of your forages, landbase, hay, the less you need to depend on expensive inputs.

University studies have shown that Nutrizorb® increases the TDN (total digestible nutrients) of the forage by 3 percentage points, which means you're getting more out of every single mouthful. **Poor quality hay will function like a mediocre hay, and mediocre hay will function like good quality hay.**

A BLEND OF 100% PROTECTED KEY TRACE MINERALS

Esqort® trace minerals are set up to get to where they need to go: the bloodstream. The Esqort® mineral technology ensures they have a 'protection mechanism' around them, so that they weather the journey through the harsh environment of the rumen and get to the small intestine, where they are then absorbed into the blood. *That is how we achieve breeding success and improved health & immune status.*

**100%
