HEAR WHAT THE MCINTYRES HAVE TO SAY:

“IN A DROUGHT-RIDDEN YEAR OF DUST IN SOUTH TEXAS, OUR DARK RED CATTLE ARE GLEAMING WITH HEALTH & VITALITY. WE HAD THE **LARGEST CALF CROP EVER**. THE CALVES WEIGH 100 POUNDS MORE THAN THE HIGHEST WEIGHTS WE HAVE RECORDED AT WEANING. EVEN THE FLIES HAVE DIMINISHED. WE JUST EXPERIENCED THE DRIEST 15-MONTH PERIOD IN THE LAST 10 YEARS WITH DIMINISHED GRASS GROWTH. THE CATTLE IMPROVED SO QUICKLY THAT WE DID NOT EVEN PUT OUT HAY. **OUR AVERAGE STEER WEIGHED 410 POUNDS IN 2018... AND 519 POUNDS IN 2020...**”
