

# WHICH SIDE ARE YOU?

## JOSH FREIBERGER

ALLIANCE, NE

### BEFORE

Spending a lot of hard earned cash on drugs to treat 100 calves with summer pneumonia.

Spending a lot of time doctoring calves.

A lot of wear and tear physically, catching and and treating 400 pound calves.

### AFTER

Quit treating and started Riomax.

Got healthy calves hitting the ground.

Way less summer pneumonia.

Saving \$3,000 - \$3,500 (conservatively) in drug costs alone.

## NJ ANGUS

ADRIAN, OR

### BEFORE

Shooting for a 60 day window and selling anything outside of 60 days.

Have bloody discharges at cleaning.

### AFTER

The most uniform crop with a 45 day calving window.

They clean so quickly you can't tell they've calved

They're hitting the feed early, hitting the tubs, and they're just growing!
