

## 2020 ComboCube™ - 60 Second Radio Ad

ComboCubes™ strategically combine the Riomax® science, which is the Nutrizorb® digestion pack and the Esqort® 100% rumen bypass trace minerals, and put it into a 1-pound feeding of a cube that is a blend of DDG, flax and other high-quality protein and energy sources.

Depending on your specific preference, this can be used either as a replacement to the Riomax® tub program, or in conjunction with, as part of the Riomax360® year-round program.

Some times that it may be a fit are: strategically in drought situations, winter feeding programs, as a management tool to suck cattle into different parts of the pasture and many more.

Available in 7/16" and 7/8" sizes, this is an all-natural program, high in protein and energy with no urea. ComboCubes™ are available in bulk, 1-ton totes or 50-pound bags.

These are not just cubes, they're ComboCubes™.
