

TUB CHECKLIST

BRAND: _____

100% PROTECTED TRACE MINERALS

COPPER, ZINC, SELENIUM, AND MANGANESE

100% PROTECTED TRACE MINERALS HAVE THE HIGHEST CHANCE OF MAKING IT ALL THE WAY THROUGH THE RUMEN AND TO THE BLOODSTREAM. FROM THERE, THEY ARE ABLE TO MAKE A POSITIVE IMPACT ON FERTILITY, IMMUNE STATUS, AND MORE.

ZERO SULFATES OR OXIDES IN KEY TRACE MINERALS

ZINC OXIDE AND COPPER SULFATE ARE COMMON ONES TO WATCH OUT FOR

SULFATES AND OXIDES ARE VERY CHEAP FORMS OF MINERAL. UNFORTUNATELY, THIS MEANS THEY HAVE LOW BIO-AVAILABILITY AND A LOW CHANCE OF BEING ABSORBED INTO THE BLOODSTREAM. ADDITIONALLY, SULFATES AND OXIDES CAN ACTUALLY HAVE NEGATIVE IMPACTS ON THE RUMEN BACTERIA.

MULTI-COMPONENT DIGESTION PACK

LOOK FOR THINGS LIKE YEAST, ENZYMES, PROBIOTICS, PREBIOTICS...

WHILE MANY TUBS INCLUDE 1 OR 2 DIGESTION COMPONENTS, A BROAD SPECTRUM DIGESTION PACK WITH MULTIPLE COMPONENTS IS ESSENTIAL TO HELP ANIMALS OPTIMIZE FEEDSTUFF BREAKDOWN AND NUTRIENT EXTRACTION. AFTER ALL, IF THE ANIMAL IS UNABLE TO UTILIZE THE ENERGY AND PROTEIN IN THEIR FORAGES, THOSE NUTRIENTS WILL GO STRAIGHT OUT THE BACK END.

LOW COST PER HEAD PER DAY

CALCULATE YOUR COST PER HEAD PER DAY BY TAKING THE AMOUNT SPENT, DIVIDED BY THE # OF HD, DIVIDED BY HOW MANY DAYS THE PRODUCT LASTS FOR.

WATCHING YOUR ACTUAL COST PER HEAD PER DAY, OR TRUE COST TO FEED, ENSURES INPUT COSTS ARE KEPT IN CHECK. BE MINDFUL THAT WHILE SOME TUBS HAVE A LOW UPFRONT PRICE, THEY HAVE A HIGH COST PER HEAD PER DAY. HIGHLY CONCENTRATED PRODUCTS ARE MORE LIKELY TO HAVE A HIGHER UPFRONT COST AND A LOW COST PER HEAD PER DAY.

CONSUMPTION GUARANTEE

ELIMINATE THE RISK OF HAVING TO PAY FOR EXTRA PRODUCT IF OVERCONSUMPTION OCCURS.

A CONSUMPTION GUARANTEE GIVES YOU PEACE OF MIND THAT IF YOUR CATTLE OVER-CONSUME, YOU'LL BE TAKEN CARE OF. KEEP IN MIND THAT PRODUCTS WITH SELF-REGULATING INTAKE TECHNOLOGY HELP REDUCE THE RISK OF OVERCONSUMPTION.
