

A POWERFUL DIGESTION PACKAGE

With 19 digestion components including prebiotics, probiotics, yeast, enzymes, and FungiFuel™. Designed to improve forage breakdown and increase nutrient extraction.

1. HOW DOES IT WORK?

Nutrizerb® works with Mother Nature to **stimulate and hyper-activate the rumen microbes**. The job of these rumen microbes is to break down everything an animal eats. By stimulating them, Nutrizorb® enables the microbes to work harder and faster.

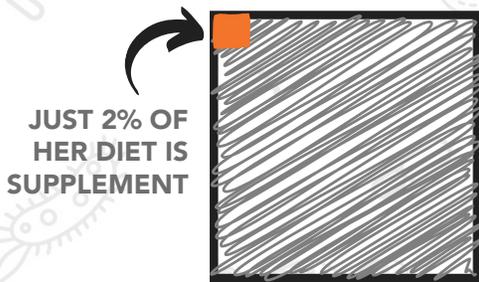

2. WHAT DOES IT DO?

With more rumen microbes that are more active, animals can **extract more energy, protein, and nutrients out of the forage** they consume. More microbes also means more microbial protein, which makes up 30-60% of a cow's daily protein requirements. Essentially, Nutrizorb® makes a more efficient herd!

3. WHY DOES IT MATTER?

Essentially, Nutrizorb® is making your herd more efficient! They are getting more out of each mouthful, so they consume less, and **you can save feed and forages!** This looks like more days on pasture, feeding less hay, increasing carrying capacity, etc.

SQUARE REPRESENTS COW'S DAILY DIET.

NUTRIZERB® HELPS OPTIMIZE THE ENTIRE DIET, NOT JUST THE SMALL ORANGE SQUARE!

✓ **15-30%**
HAY/FORAGE SAVINGS

✓ **10-40 POUNDS**
INCREASE IN WEANING WEIGHTS

✓ **3%+ TDN**
ACCORDING TO UNIVERSITY OF MN

GET MORE OUT OF WHAT YOU'VE ALREADY GOT!

A study done at the University of Minnesota proved that Nutrizorb® increases the TDN of the forage substantially, and hence helps ranchers to get more mileage out of their existing resources.

With this technology, ranchers across North America consistently see 15-30% hay savings, extended grazing periods, and weight gain on calves.

Nutrizerb® is included in every Riomax® product.
