

FLY-BYE360™

CATTLE LICK TUB WITH A NATURAL FLY REPELLANT COUPLED WITH ALTOSID IGR

A double-barreled approach to fly control for maximum results.

DefenderPAC®

The odor released through the cow's skin, breath and manure repels and deters many types of parasitic insects.

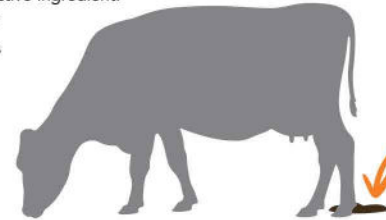

Part of the mode of action of the DefenderPAC® provides a "mechanical kill" to the fly larvae.

ALTOSID IGR

Altosid® IGR Active Ingredient: (S)-Methoprene

Fights horn flies specifically.

Insect Growth Regulator stunts larvae development. Has no effect on adult flies.
